Play mission statement

The play team aims to promote a positive hospital experience for children, young people and their families. The play team are available to promote the physical, emotional and mental wellbeing of children and young people who are patients or visitors in hospital. This will be achieved through the provision of appropriate therapeutic and stimulating play within a safe environment.

Who are the play team?

The team is made up of qualified nursery nurses, early year's practitioners and play specialists.

Nursery Nurses hold a minimum of NVQ level 3 or above qualification and also have at least two years' experience of working with children and young people.

Early Years Practitioners are qualified at level 3 and above with staff being educated from BTEC, NVQ, to foundation degree status all having more than two years' childcare experience in varying settings.

Health Play Specialists are qualified nursery nurses who also have at least two years' experience of working with children and have undertaken further study (Foundation Degree in Healthcare Play Specialism) to register as a qualified healthcare play specialist.

When is the play team available?

The play team are available Monday to Friday between 7am and 8pm.

Weekends and bank holidays between 7am and 3pm.

Where is the play team based?

The Play Team is based on the Children's Ward at York hospital but work in other areas within child health (day unit, child development centre and children's assessment unit).

The role of play and recreation in hospital

- **Play and recreation** creates an environment where stress and anxieties are reduced.
- **Play and recreation** helps patients to regain confidence and self-esteem.
- **Play and recreation** provides an outlet for feelings of anger and frustration.
- **Play and recreation** helps patients understand their illness and the treatment for it. Through play, patients are able to process the information they need in preparation for hospital procedures and treatments.
- **Play and recreation** aids consent to assessments and understanding of diagnosis.
- **Play and recreation** speeds up the recovery and rehabilitation process.
- **Play and recreation** is fun and helps your child to take home positive experiences about their stay in hospital.

Role of the play specialist/leader

- To organise and provide play activities in areas where patients attend and by the bed sides.
- To maintain a patient friendly and welcoming environment that helps bridge the gap between home and hospital.
- Provide play and recreation to achieve and maintain developmental goals.
- Help children and young people overcome and cope with anxieties and other emotions.
- Use play and recreation to prepare and support children through hospital procedures.
- Support families and siblings.
- Contribute to clinical judgements through observations.
- Promote/teach the value of play and communication for the sick child and young person.
- To encourage peer group friendships to develop.
- Maintain high standards in health and safety for children.
- To keep updated in best practise with a view to improving services.

Facilities

Ward 17

Play room open **9am – 6.30pm.**

Sensory room available at all times.

The Cube is open **9am – 6.30pm.**

The Cube is a play space for children over 8yrs.

Use is limited to one family at a time in all of these areas. This is to ensure we are adhering to Covid guidelines/social distancing.

Please speak to a member of the Play Team who can book your child in for a play session in these areas.

All areas are cleaned thoroughly after each use.

Whilst these rooms are in use toys and activities can be brought to the bedside by the Play Team.

We have a range of toys/activities suitable from birth to 18years.

Children's Assessment Unit

Playroom/ waiting room open 9am till late

This room is used as a waiting area and has limited toys available. If you are in a bay you will not be able to access this room to play.

There are toys and activities available at the bedside please ask for a member of the Play Team.

Day Unit

Toys and activities are provided at the bed side.

Please ask for a member of the Play Team.

Child Development Centre

There is not a play room available in this area.

Please ask a member of the child development team if you require toys/activities/support in clinic.

School

'Children have a right to properly planned education',
Citizens Advice (2015).

For school aged children who have been in hospital for over five days, the nurse in charge will contact their school to arrange for visits or work (if well enough) so that education and development is not hindered or delayed.

Sensory room

Sensory play can be beneficial to children of all ages and abilities as everyone needs to develop their senses (hearing, sight, smell, movement and touch) hand/eye coordination, language development, control over their environment and relaxation.

The sensory room is available to children of all ages and contains an air tube, music with USB, fibre optics, UV lighting, mirrors, musical toys, soft flooring and support aids, a light projector and a wall mounted fan.

Patients and parents are encouraged to use the sensory room as it allows for time together in a calming environment.

Patients who are bed bound or in wheelchairs can also use the sensory room. Speak to a member of the team to adapt to your needs.

The sensory room can help reduce anxiety and stress and can be used at any time of the day or night.

We ask that all patients are accompanied by an adult over the age of 18 due to health and safety guidelines.

Outdoor shoes must be removed and hand gel used before entering.

Use is limited to one family at a time and the sensory room is cleaned after each use.

Can I bring my own toys and games onto the ward?

Yes you can.

Home comforts such as bears and blankets are encouraged to be brought into hospital for familiarity and comfort.

Toys and games can be brought into hospital but need to be appropriate to the environment.

The ward has plenty of toys/activities available for use. Any items from home must be kept to a minimal.

Limited games consoles, TVs and DVDs are available on the ward for use at the bedside.

Wifi is available – access is through signing into NHS WiFi. This takes you to the signing in page of the NHS BT open zone. All you need to do is click on 'Get Online'.

Patients are encouraged to keep personal belongings safe, as York and Scarborough Teaching Hospital NHS Foundation Trust cannot be held responsible or liable for theft or damage.

Teaching, training and research

Our Trust is committed to teaching, training and research to support the development of health and healthcare in our community. Healthcare students may observe consultations for this purpose. You can opt out if you do not want students to observe. We may also ask you if you would like to be involved in our research.

Patient Advice and Liaison Service (PALS)

PALS offers impartial advice and assistance to patients, their relatives, friends and carers. We can listen to feedback (positive or negative), answer questions and help resolve any concerns about Trust services.

PALS can be contacted on 01904 726262, or email pals@york.nhs.uk.

An answer phone is available out of hours.
