

# HOW TO SAVE MONEY USING EDENRED

## JENNY'S STORY

### Meet Jenny

Jenny is a Health Care Assistant at York Hospital and at home is a mum to three boys aged between 5 -10 years old. Jenny loves making memories with the boys and being near the sea.

### Pay Day Treat

After each pay day, Jenny loves to pop into Primark and treat herself and the boys to something new! Normally spending around £50, Jenny really looks forward to this regular visit.

### Budget Savvy

Jenny also prides herself on being a 'budget savvy' mum. Planning her monthly expenditure after every pay day, Jenny uses EdenRed to purchase a £50 Primark voucher for £46.50 saving £3.50 each time.

### Save Save Save

£3.50 doesn't sound like much of a saving, but after saving the difference over 12 months in her 'Rainy Day' jar, Jenny has saved £42 in total alone from purchasing discounted Primark vouchers every month.

### A Weekend Away

Jenny also uses vouchers for other regular spends including the weekly food shop and fuel for the car. Meaning she saved a combined total of £230 over 12 months using EdenRed.

To celebrate, she's put her savings towards a well deserved holiday by the sea!
