

# HOW TO SAVE MONEY USING EDENRED

## JILL'S STORY

### Meet Jill

Jill is an Admin Assistant at York Hospital, living in a small village about an hours journey from York. Jill happily lives alone, and enjoys spending her weekends hiking and exploring beauty spots around the UK.

### Cost Of Living Crisis

The recent cost of living crisis has been hard on Jill, she's had to cut down a lot of her monthly spends and keep an eye on her finances. Her main worry is the cost of petrol, as living in a remote area means a lot of travelling to get places (there's not many buses).

### Save On Fuel

Jill now purchases EdenRed vouchers to use at Morrisons petrol stations. On average she spends £300 a month on fuel, so Jill buys a £300 voucher for £291 to use throughout the month, making a regular saving of £9.

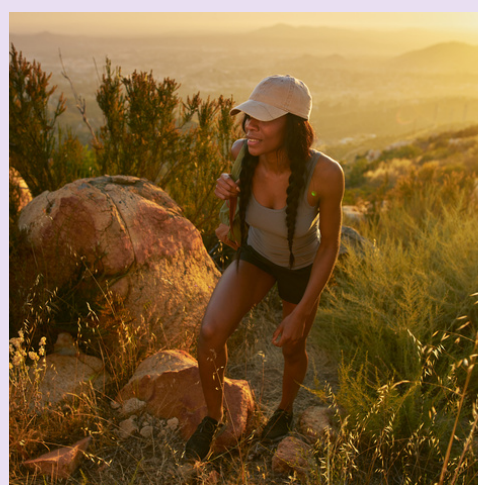

### It All Adds Up

£9 doesn't sound like much, but after using EdenRed for 12 months, Jill has saved £108 in total. With a full tank costing Jill £60 a time, that gives Jill nearly two free tanks of fuel a year!

### Time to explore

Jill used this saving to travel to the Peak District and do what she loves.

Jill now uses EdenRed vouchers to save on her food shop too and other monthly spends - a little bit of planning can help spread your pennies a long way.
